

ESSENTIAL FIRE SAFETY

Hi...Strataman here,

Fire Safety compliance is critical with dire outcomes if fire safety measures are not properly maintained including legal ramifications, significant fines and even worse Fire Safety measures include fire mains, hydrants & hoses, extinguishers, emergency lighting & exit signs, fire doors, sprinkler systems, detectors & alarms just to name a few. All of this equipment requires maintenance & inspection and any defects rectified. NSW Fire & Rescue estimates that once a fire has ignited in a home you have three minutes to escape safely. The bottom line is that everyone **MUST** comply with the Fire Safety Legislation.

Go to www.strataman.com.au/QandA.html for all the latest on the new Strata Legislation.
